above all else.

This is a new way to fly commercial

A private respite away from the bustle of ATL, PS operates out of its own airport terminal, offering easy security screenings and a relaxed, seamless travel experience, all with the spirit of luxury hospitality.

PS gives you security, peaceful sanctuary and pleasure for the senses.

Because we believe you deserve to enjoy the path you're on.

"The ultimate fast track for VIPs at ATL."

~ The Wall Street Journal

“PS is easily the most unique and luxurious way to travel.”

~ Forbes

The airport experience, reimagined

On departure, a PS Host greets you and takes care of your luggage while you enjoy the respite of a Private Suite, or our lively social lounge, The Salon. Indulge in luxury amenities and delicious food and cocktails until your flight – when you’ll sail through TSA screening (kiss long lines goodbye) and be escorted directly to your aircraft door.

On arrival, you are met at the aircraft door and escorted directly from the airfield to the PS terminal where you clear customs and immigration and await luggage delivery.

We handle all the little things (and the big things, too) so you don’t have to.
